# Deroma, A LOVE FOR PLANTS

I prodotti di Deroma sono pensati innanzitutto per il benessere dei loro ospiti principali: le piante.

Quello che esprime subito Mr Dupré La Tour, paesagista a Drôme, è la sua passione per i vasi in terracotta dicendo:

*"I vasi in terracotta per la loro porosità permettono alle piante di respirare. Sono naturali al 100% e quando si colorano di quella patina che naturalmente il tempo dona loro acquistano un fascino unico. E' il materiale autentico per eccellenza!"*

E' curioso ascoltare i racconti di 3 ragazze più o meno coetanee che in tre paesi diversi hanno usato i prodotti Deroma per dare vita a composizioni semplici, ma significative.

Daniela, Veneziana, ci racconta che preferisce avere le piante in vaso che in giardino. Il motivo?

*"Mi danno il buonumore" afferma "e con il vaso posso spostarle per averle sempre sotto gli occhi". Continua dicendo "Non sono una grande esperta di piante quindi in genere scelgo prodotti che rendano la cura più facile. La riserva d'acqua di Samba per me è stata una grande scoperta!"*

Diverso è l'approccio di Brigitta da Klagenfurt.

*"lo scelgo la terracotta, da sempre, per la resistenza e perché per le piante è sempre il TOP! Non sono una innovatrice, ho trovato quello che fa per me e non ho nessuna intenzione di cambiare."*

Nelly, di Montelimar in Francia, invece ci racconta: *"Scelgo i vasi Deroma per la grande scelta di prodotti a vari livelli di prezzo, so di trovare sempre il prodotto giusto per la mia casa o il giardino. Riesco sempre a creare una bella armonia tra il vaso, la pianta e il mio ambiente."*

Deroma products are primarily conceived for the wellbeing of their main inhabitants: the plants.

Mr Dupré La Tour, garden designer in Drôme, immediately expresses his passion for terracotta: *"Porosity of terracotta pots allows plants to breathe. It's a 100% natural material and when pots acquire that typical patina they get extremely fascinating. It's a the most authentic material!"*

It's curious to listen to what 3 young ladies from different countries tell us about their simple but meaningful compositions made with Deroma products.

Daniela from Venice tells us that she prefers having her plants in pots than in the garden. *"They make me feel happy"* she continues *"and thanks to the pots I can move them wherever I want. Plastic is the best for me!"*

Brigitta from Klagenfurt has a very different idea: *"I have always bought terracotta planters, not only for the resistance... for my plants it is always a TOP choice! I am not an innovator, I have found what is good for me and no intention to change".*

Nelly from Montelimar always chooses Deroma pots: *"I like Deroma for the great choice of products at different price levels, I am sure to always find the right product to create a good harmony among pot, plant and location".*

Die Produkte Deroma sind vor allem für das Wohlergehen ihrer Hauptgäste gedacht: der Pflanzen.

Hr. Dupré La Tour, ein Gartenarchitekt aus der Drôme, dessen Leidenschaft Töpfe aus Terracotta sind, erklärt es so:

*"Töpfe aus Terracotta, aufgrund ihrer Porosität, erlauben es der Pflanze zu atmen. Sie sind 100% natürlich, und wenn sie mit der Zeit diese besondere Patina bekommen, verleiht es eine einzigartige Ausstrahlung. Es ist das Material der Natur schlechthin".*

Interessant sind auch weitere Aussagen von drei Frauen aus verschiedenen Ländern, die Deroma Produkte benutzt haben um einfache, jedoch inhaltvolle Kompositionen zu kreieren.

Daniela, aus Venedig erzählt uns, dass Sie lieber Pflanzen im Topf bevorzugt, als im Garten. Der Grund ist einfach:

*"Sie vermitteln mir gute Laune"* sagt Sie *"und im Topf kann ich Sie überall hin verschieben, um sie immer vor Augen zu haben"*. Sie fährt fort *"ich bin keine besondere Pflanzenkennerin, deshalb suche ich mir immer pflegeleichte Produkte. Samba, mit der integrierten Wasserreserve ist für mich ideal"*.

Brigitta aus Klagenfurt, dagegen, hat einen anderen Ansatz:

*"Seit je her wähle ich Terracotta, wegen der Robustheit und weil es das Beste für die Pflanze ist! Ich brauch nicht immer etwas neues; wenn ich mal das Richtige für mich gefunden habe, will ich nicht mehr wechseln"*.

Nelly aus Montelimar, in Frankreich, erzählt uns dagegen: *"Ich wähle Deroma, wegen der großen Auswahl an Produkten auf jedem Preisniveau. Ich weiß, dass ich immer das richtige Produkt für mein Haus oder Garten finde werde. Jedes Mal schaffe ich eine harmonische Verbindung zwischen dem Topf, der Pflanze und meinem Ambiente"*.

## Colors and Nature

**Novaterra** è il risultato di una costante evoluzione produttiva e progettuale, della continua ricerca di miscele di argilla di più alta qualità e performanti. Non solo forme e decori, ma colori nuovi che lasciano inalterate le caratteristiche specifiche dei vasi in terracotta.

*Novaterra is the result of a constant productive and designing evolution, of sustained research for greater quality clay mixtures with enhanced performance. Not only shapes and decor, but new colours that leave the specific characteristics of the terracotta pots unchanged.*

*Novaterra ist das Resultat nicht nur aus der fortlaufenden Fortentwicklung in Fertigung und Planung, sondern auch aus der unablässigen Suche nach noch höherwertigen und noch leistungsstärkeren Tonmischungen. Nicht nur Formen und Dekore, auch neue Farben, die die besonderen Eigenschaften von Terrakottagefäßen unverändert lassen.*

## Origin of Tradition

**La terracotta:** un materiale nato con l'uomo, che continua a prendersi cura delle piante con amore. Un materiale che dalle sue origini Deroma conosce e utilizza, continuando a perfezionarlo ed esplorarlo.

*Terracotta: a material as old as man himself, and which continues to lovingly take care of plants. A material that Deroma knows well and has been using ever since the company's beginnings, continuing to explore and perfect it.*

*Terrakotta: Ein Werkstoff, der entsteht, als der Mensch beginnt, Pflanzen liebevoll zu pflegen. Ein Material, das Deroma seit Anbeginn kennt, führt und noch immer perfektioniert und erforscht.*

## Earth and Heart

---

Deroma **handmade terracotta** rivisita una tradizione ancestrale, l'uso di creare oggetti con le mani, impastando l'argilla e cuocendola con il fuoco. Ogni pezzo è unico, grazie all'artigianalità del processo, alla cura dei dettagli, ma anche alla selezione di diverse argille e finiture.

*Deroma handmade terracotta revisits an ancestral tradition, the custom of creating handmade objects, moulding and firing the clay. Each piece is unique, thanks to the craftsmanship of the process, to the attention paid to detail, but also to the selection of different clays and finishes.*

*Deroma "handmade terracotta" interpretiert eine urzeitliche Tradition neu, die Gepflogenheit, Gegenstände mit den Händen zu erschaffen, indem man Ton knetet und mit Feuer brannte. Jedes Stück ist einzigartig, dank des handwerklichen Prozesses, der Liebe zum Detail, aber auch der Auswahl verschiedener Tonerden und Oberflächen.*

La ricerca stilistica incontra il potenziale espressivo del colore nella linea **Glazed**. Colori pastello o brillanti per soddisfare ogni desiderio di colore in un angolo dedicato alla natura. Le miscele di argille selezionate, i colori atossici e i prolungati tempi di cottura danno vita a prodotti che proteggono la pianta decorando con stile e personalità.

*Research into style encounters the expressive potential of colour in the Glazed line. Pastel or brilliant colours to satisfy every possible desire for colour in a corner dedicated to nature. The mix of choice clays, the non-toxic colours and the extended firing times give life to products, protecting the plant and decorating with style and personality.*

*Ausgesuchte Stilmittel gehen mit dem ausdrucksstarken Potential der Farbe in der Linie Glazed eine gelungene Verbindung ein. Pastell- oder Glanzfarben erfüllen jeden Farbwunsch in einer Ecke, die ganz der Natur gewidmet ist. Aus ausgewählten Tonmischungen, unter Verwendung ungiftiger Farben und während extra langer Brennzeiten entstehen Erzeugnisse, die die Pflanze schützen, gleichzeitig aber stil- und charaktervoll dekorieren.*

## Take it Easy

---

L'innovazione come materia prima, questa è la filosofia di Deroma. Nella sezione **Light Material** innovazione estetica e funzionale si uniscono dando vita a vasi di grandi dimensioni, resistenti ma leggerissimi, oltre ad accessori unici che aumentano le prestazioni dei prodotti.

*Innovation considered as a raw material, this is Deroma's philosophy. In the Light Material section, aesthetic and functional innovation combine, leading to the creation of large-sized pots, strong and yet extremely light, besides unique accessories that increase product performance.*

*"Innovation als Rohstoff", so lautet die Philosophie von di Deroma. Im Abschnitt Light Material vereinen sich ästhetische und funktionelle Innovation zu großzügig bemessenen, widerstandsfähigen, aber sehr leichten Gefäßen sowie zu einzigartigen Zubehörprodukten, welche die Leistungsmerkmale der Produkte erhöhen.*
